Forecast Accuracy: September 2026

Jamaica Public Service
Forecast is the approved budget

System sales were forecast to 99% in September, but large commercial accounts were forecast to only 60% account by account.

SYSTEM ACCURACY, SEPTEMBER
99.2%
−2.5 GWh vs forecast
August 98.9%; January to September 98.5%

LARGE ACCOUNTS, SEPTEMBER
60%
RT40 to RT70, by account
August 63%; January to September 80%

COMMERCIAL SHORTFALL
−15.2 GWh
RT40 to RT70 vs forecast
Two accounts explain 55% of it

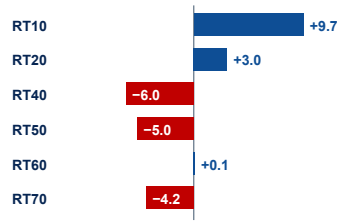

RESIDENTIAL ABOVE PLAN
+9.7 GWh
RT10, +9% vs forecast
RT20 +3.0 GWh

BY RATE CLASS

Rate class	September (GWh)			Net accuracy			Account level	
	Actual	Forecast	Variance	Aug	Sept	YTD	Sept	YTD
RT10 Residential	114.6	104.8	+9.7	97%	92%	97%	n/a	n/a
RT20 Small commercial	60.6	57.6	+3.0	97%	95%	97%	n/a	n/a
RT40 Commercial	67.3	73.3	−6.0	99%	91%	97%	66%	81%
RT50 Large commercial	30.3	35.3	−5.0	86%	83%	94%	64%	77%
RT60 Street lighting	3.4	3.3	+0.1	99%	97%	98%	96%	97%
RT70 Industrial	18.6	22.9	−4.2	81%	77%	90%	28%	79%
Total system	**294.8**	**297.3**	**−2.5**	**98.9%**	**99.2%**	**98.5%**	**60.4%**	**80.1%**

Accuracy = 1 − |actual − forecast| ÷ actual. Account level adds up the miss on every account (RT40 to RT70 have account budgets; RT10 and RT20 are budgeted in consumption bands). January and February budgets were set equal to actuals, which lifts the year to date figures.

SEPTEMBER VARIANCE VS FORECAST (GWH)

Residential ran above forecast while RT40, RT50 and RT70 ran below, so the system total looks closer than the classes are.

LARGEST COMMERCIAL INDUSTRIES

Industry	September (GWh)		September accuracy		Jan to Sep accuracy	
	Actual	Variance	Net	Account	Net	Account
Water supply and irrigation	18.6	−2.4	87%	53%	95%	74%
Hotels and motels	17.2	−3.7	78%	50%	92%	71%
Cement manufacturing	9.2	+0.4	95%	95%	91%	91%
Telecommunications	7.0	−1.2	83%	68%	92%	82%
Executive offices	5.9	+0.1	98%	76%	98%	85%
Full-service restaurants	5.1	−0.2	97%	81%	100%	89%
Banking, insurance and investments	4.8	+0.1	99%	85%	99%	91%
Supermarkets and grocery	4.0	−0.1	99%	83%	96%	88%

95% or better | 85 to 95% | below 85%

WHAT IT MEANS

1. **Two accounts drive the miss**
   Alcoa's move to self-generation (−6.5 GWh) and the Caribbean Broilers billing timing (−1.8 GWh) are 55% of the commercial shortfall.
2. **Hotels are below plan**
   −3.7 GWh in September, still recovering from Hurricane Melissa.
3. **Totals hide account misses**
   Water supply is 95% accurate year to date in total but 74% account by account.
4. **Action**
   Key account managers to refresh the outlook for the largest accounts as soon as a change is known: self-generation, outage, expansion or billing correction.

Customer-billed basis, September restated. Forecast is the approved budget.
